SUDHANSHU PRATAP

iOS Developer | B.Tech CSE (AI & Data Science)
+91-9720696988 | sudhanshu21105@gmail.com | github.com/SudhanshuPratap | linkedin.com/in/sudhanshu-pratap

SUMMARY

iOS Developer with hands-on experience shipping FinTech and productivity features in Swift, SwiftUI, and UIKit during an Apple x Infosys iOS Development Center internship, plus independent projects spanning Core Data, Vision, and SpriteKit. Comfortable owning a feature end-to-end — UI, offline-first data layer, and Firebase-backed real-time workflows — and has led Agile ceremonies as Scrum Master for a 9-member team. Apple Swift Student Challenge entrant seeking an entry-level iOS Developer role.

INTERNSHIP EXPERIENCE

iOS Developer Intern, Infosys Ltd. **June 2026 – July 2026**

Mysore, India | Apple x Infosys iOS Development Center Program

Tech Stack: Swift, SwiftUI, UIKit, MVVM, Firestore, Core Data, REST APIs, Git, Jira

- Engineered core Borrower-app features — loan application flow, EMI calculator, and repayment/transaction history — for a 4-interface FinTech Loan Management System built with SwiftUI and MVVM.
- Implemented Vision framework-based smart document parsing to auto-extract and validate borrower documents, cutting down manual data entry in the loan approval workflow.
- Built real-time loan eligibility checks by integrating Firebase/Firestore-backed workflows with backend REST APIs.
- Served as Scrum Master for a 9-member team split into 2-person interface pods — ran daily stand-ups, sprint planning, and retrospectives, and tracked deliverables in Jira.

PROFESSIONAL TRAINING

Apple x Infosys iOS Student Program, Graphic Era Hill University **Aug 2025 – May 2026**

Key Areas: UIKit, Core Data, Foundation, Vision, MVVM, Design Thinking, Figma, Git, Apple HIG

- Completed structured coursework and workshops covering product ideation, user research, market analysis, prototype development, and evaluation pitches.
- Built hands-on proficiency in UIKit, Core Data, Foundation, and Vision through guided iOS development modules — forming the technical foundation applied in the internship and personal projects.

PROJECTS

Study Quill — iOS Note-Taking App **4-member team**

Tech Stack: UIKit, Core Data, Firebase

- Designed the core UI and built offline-first note storage using Core Data, enabling full access without an internet connection.
- Built a group-based note sharing and commenting system using Firebase for real-time collaboration.
- Collaborated on smart auto-tagging and reading-list organisation features to speed up note retrieval.

Pen Fight — Physics-Based iOS Game **Apple Swift Student Challenge 2026**

Tech Stack: Swift, SpriteKit, GameplayKit

- Designed and built a 2D physics-based combat game from scratch using SpriteKit and GameplayKit, implementing custom collision detection, particle effects, and touch-based controls.
- Submitted as an official entry to Apple's Swift Student Challenge 2026; released v1.0 publicly on GitHub with a full gameplay demo video.

EDUCATION

B.Tech, Computer Science & Engineering (AI and Data Science) **2023 – 2027**

Graphic Era Hill University, Dehradun

SKILLS

Languages: Swift, Java, C++

Frameworks: SwiftUI, UIKit, Core Data, Combine, Vision, SpriteKit, Foundation

Architecture & Practices: MVVM, MVC, Auto Layout, Agile/Scrum, Offline-First Design

Tools: Xcode, Git, GitHub, Firebase, Firestore, Jira, REST APIs

CERTIFICATIONS

- Apple Swift Student Challenge — Official Entrant, 2026
- Agile Software Development — Infosys Springboard
- Design Thinking — Infosys Springboard
